

Information About the Service

This offer includes broadband services provided by the NBN Co. Network.

Minimum Term

All NBN plans are available on a no contract term, a 12-month contract or 24 month contract.

Your Monthly Data Allowance

You receive 50GB (1GB = 1 Gigabyte which is made up of 1000 Megabytes) of data each month. Data uploaded and downloaded contribute towards your monthly quota.

Should you exceed your included data quota, your connection will be shaped to 256kps/256kps for the remainder of your billing period. Your billing period date range is printed on each invoice we supply.

Installation

There are two stages of connection when you connect to the NBN. We will organize an NBN connection appointment to your property on your behalf, we will also send a compatible router (should that be requested).

Included with the NBN appointment a standard NBN installation is included, however if your installation is non-standard, NBN Co will discuss and obtain your agreement to any additional fees before starting work.

If you are not the owner of the property where the service is going to be installed, you must obtain the owner's consent to the installation of the NBN and its location of installment.

Broadband Speeds

This broadband service on the NBN offers download line speeds up to 12Mbps and upload speeds up to

1Mbps with an average evening speed of 9mbps (between 7pm – 11pm each day). Additional speeds can be obtained by ordering a speed pack (where available). Availability of additional speed packs can be obtained by calling our customer service team.

Actual obtained speeds will be slower and will vary due to a number of factors including hardware and software configuration, source and type of content downloaded or uploaded, the number of users and performance of interconnecting infrastructure not owned by Planet Ozi.

Download speeds on devices connected via Wi-Fi or other wireless technologies may be slower than on devices connected directly by Ethernet cable.

Special Promotions & Value Added Services

This summary doesn't include any special promotions or extra value added services that you may select or add to your package.

Telephone Line Service & Power Outages

A voice service can be applied for via our VoIP product, there are several VoIP plans available and they can be viewed from our website.

Unlike some existing phone services, your phone and broadband services will not operate during a power failure. This means that you will not be able to make or receive calls, including calls to Emergency "000" services. Please consider the implications of this, especially if you have a back to base alarm system or personal response system that you would like via your telephone service on the NBN.

Information About Pricing

Monthly Charge

The minimum monthly charge under this offer is \$49.95 per month. This does not include any usage charges associated with the services provided.

This equates to \$0.99 for 1 Gigabyte of data on this offer. Minimum charge on a no contract term is \$178.95 or \$599.40 on a 12 month term.

Speed Packs & Plan Changes

This plan comes with a base speed of up to 12mbps/1mbps with an average evening speed of 9mbps. Speed packs can be added to increase the speed of the service (where available);

Speed Pack 1: average evening speed of 18mbps is an additional \$10.00 per month. Speed Pack 2 has an average speed of 30mbps during evening times and is available for an additional \$20.00 per month.

Downgrading plans incur a once off cost of \$22.00 and changing speed packs incur a once off fee of \$44.00.

Other Information

Incompatible Equipment

Most existing devices will be supported by a telephone service on the NBN. However, some older landline telephone handsets (such as dial/rotary phone), back to base alarm systems, personal response systems and fax machines may not work. Please check with the manufacturer/provider to check if your device is compatible.

Usage Information

You can access information as to your current usage at any time by logging into our Customer Access Toolkit at <http://cat.planetozi.com.au> or by clicking Customer Tools and then CAT from our website.
